About Me:

I am a full stack web development student and hope to successfully graduate with a diploma in February 2019. My broad career experience affords me a wealth of technical and life skills that I use with every project and business venture.

I am self-starter when working solo, as well as resourceful, capable and determined. I am customer orientated and maintain great communication with customers and work colleges. Maintaining relationships always networking is the key to enjoying a successful career.

Areas of Strengths:

- Adaptable and a Fast Learner.
- I thrive in a Healthy Vibrant Environment as a Team player.
- Target driven.
- I have advanced MS Excel and Office products skills
- I am discrete and value the importance of information confidentiality
- I can visualise a new product as well as reverse engineer the concepts needed to build it.
